

PRODUCT SHOWCASE 2025

अब मोटर स्टार्टर नहीं **मोटर प्रोटेक्टर**

Sh. Anand Parkash Singla
(MD. Ras Aqua Tech Pvt. Ltd.)

ABOUT

Established in the year "1975", we, "**RAS AQUA TECH**", are known as the foremost and reputed **Manufacturer, Traders and suppliers** of high quality collection of Motor Control Panels. These products are manufactured using the optimum quality raw materials and advance technology under the supervision of skilled professionals by following international quality standards. In addition, we offer these products in various specifications in order to meet the various requirements of clients. Our products are highly cherished among clients owing to their unique features like excellent performance, reliability, perfect finish, low maintenance, longer service life, high efficiency and elevated durability.

RAS AquaTech has been dedicated to providing superior Motor Control Panels products to every Agribusiness who utilises over the past many years. Our promise to every customer is providing agronomic products with commitment to premium product performance, energy preserving and customer service.

WHY RAS AQUA TECH

At RAS Aqua Tech, we bring over four decades of expertise in manufacturing premium-quality Motor Control Panels tailored to the evolving needs of agribusinesses and industries. Our commitment to delivering excellence is reflected in every aspect of our operations, from selecting the finest raw materials to adopting advanced technologies. We pride ourselves on our customer-first approach, ensuring that every product meets stringent international quality standards.

Our panels are celebrated for their high performance, reliability, energy efficiency, and durability, offering long-term value with minimal maintenance. With a focus on innovation and continuous improvement, we aim to stay ahead of market trends and provide solutions that align with global standards.

What sets us apart is our dedication to fostering partnerships with our clients. We don't just provide products; we offer tailored solutions, technical expertise, and unparalleled support throughout the product lifecycle. Choose RAS Aqua Tech for a trusted partner who prioritizes your success, delivering reliability, performance, and customer satisfaction every step of the way.

MISSION

We deliver our mission by enabling our clients to accomplish their business goals. We support their entire product development lifecycle from prototyping to volume production. We tailor our manufacturing process for clients' needs applying our strong expertise and uncompromising commitment to quality, superior customer service, and reliability. We are a true extension of our clients' team that results in a mutually beneficial partnership for growth.

Relay Range	70-180
HP	120
Dimension (WxH)	22.5x24

Product features

- Powerful ETP grade copper strips connections.
- Digital Display of all the 3 phases amps.
- Digital Voltage Display of all phases.
- Digital over load settings for more accuracy.
- Accurate digital protections for overload, underload, phase failure, phase reversal, unbalanced Phase, over voltage and under voltage for better protections.
- Advance microcontroller based technology.
- Compatible for mobile operator devices.* **(Optional)**
- Bypass Function.
- Digital codes for fault display.
- Dry run protection.
- Beep function for fault errors.

DELTA TO DIRECT (New D2D Series)

AVAILABLE FROM
1 HP TO 100 HP

DELTA TO DIRECT (New D2D Series)

Product features

- First in class **Delta to Direct** Connection panel
- Digital AMP METER and VOLTAGE METER for better monitoring and accurate information
- Digital over load settings for added motor protection
- Digital display of AMP of all three phases
- Noise and vibration free operation
- Huge voltage working range
- Accurate digital protections for extended motor life like over load, under load, phase failure, change in phase sequence, unbalanced phase, under & over voltage etc.
- Valid for mobile operator devices
- Advanced Microcontroller Based Technology
